ACKNOWLEDGEMENT

We take this opportunity with immense pride and pleasure to convey my deep and loving regards to my guide Nidhi Tyagi (Assistant Professor) department of pharmaceutics under whose constant supervision, meticulous guidance and encouragement, this work has been carried out to completion. We deem it a pleasure and privilege to work under his guidance. His

valuable suggestion, support and keen interest throughout the investigation greatly eased this work.

We expressed our deep gratitude and regards to our supervision Nidhi Tyagi for suggesting the subject of this project work and rendering us his thoughtful and rational approach through this work. We also Thank him for the freedom of thoughts, expression and his trust, which was greatly bestowed upon us.

We are grateful and express our deep thanks and gratitude to respond professor Dr. Nitin Kumar Principal of Saraswathi college of pharmacy, who helped us in situations whenever required and without whose valuable help, the thesis could not have seen the light of the day.

We are thankful to all other technical personal for their immense contribution during our project work.

We are grateful to the authority of Saraswathi college of pharmacy, for providing all the facilities to pursue our project work.

Finally, our most reverent thanks to the almighty and our parents for their persistence blessings devoid of which we would never be able to achieve the success.
